## Education Reflections: Physical Meets Digital in the Classroom

IDCEC Course# CC-123315 Designation- HSW

AIA Course# EFP01 Designation- HSW

### Course Credits:

1.0 CEU / 1 LU

### Course Description:

This session explores how education spaces are evolving at the intersection of physical and digital learning—what we call "Phygital." Participants will discover the role of play, movement, and biophilic design in fostering engagement and well-being. We'll also examine how social media and hybrid learning influence student interactions. Through discussion and interactive activities, attendees will gain actionable insights to design more effective, inclusive, and future-ready classrooms.

### Course Objectives:

1. Understand the impact of integrating physical and digital elements ("Phygital") in modern learning environments.
2. Identify strategies for incorporating movement, play, and flexibility into classroom design to enhance student engagement.
3. Explore the role of nature and biophilic design in supporting student well-being and academic success.
4. Evaluate the influence of social media and hybrid learning models on student interaction and classroom design.
